

Ancient Wisdom Teachings of the Toltec Tradition

by Cynthia Signet

Did you know that there was a university devoted to the spiritual evolution of humanity in the Ancient Americas that flourished over 2000 years ago? It is called Teotihuacan, and translates, *The Place Where Humans Become as God*.

The curriculum taught by these master adepts known as Toltec, outlined sacred disciplines and levels of self-mastery for ultimately attaining personal freedom and happiness through self-awareness, intent, and conscious choice.

Through this spiritual warriorship training, they taught their students/apprentices how to face themselves and *know* themselves, and through that knowing, change their life.

Graduates/Initiates became fearless, without judgment, without victimization . . . to live an authentic life as self-actualized beings, in a natural state of love.

Today, Teotihuacan still serves as an initiation center and a repository of silent knowledge. The teachings of the ancient Toltec were not lost, but hidden for centuries, guarded and passed through generations of lineages, to be returned to humanity in this time now. According to Toltec and Aztec

prophecies, we are on the threshold of a time called the Sixth Sun, a cosmic shift into a new dimension of light and time. It is an extremely fragile and critical time of earth changes,

when it is necessary for us to walk in balance and remember our connection to all things, seen and unseen. The ancient people knew this, and they left their wisdom and instructions for helping us find safe passage in our transit to the Sixth Sun, if we care to listen.

Cynthia Signet integrates and promotes esoteric wisdom found in indigenous cosmologies, ancient mystery schools and sacred histories. These "ancient wisdom teachings" apply universal truths, spiritual principles and practices that accelerate the awakening of consciousness and remind us of our interconnectedness. She was initiated into the Shamanic Path for more than two decades of extensive instruction under Toltec and Native American Medicine teachers. Her quest to deepen into the knowledge of the Ancient Americas, led her to wisdomkeepers of the Incan, Mayan and Aztec traditions in her

travels to Peru, Teotihuacan and the Maya/Olmec lands of Mexico. Cynthia now shares these heart-centered teachings internationally, through ceremonies, lectures and workshops, and facilitates spiritual journeys to the earth's most sacred sites.

An introduction to these first level mastery teachings of the Toltec, will be given by Cynthia Signet in a two-day seminar, August 11 and 12, 2007 at Centerpoint Houston. Preregistration requested.
